

ODOCHECK-Mini

Odor Control Unit

*An effective
way of
controlling
foul smell
& odor.*

Horizon Odor Control Unit :-

"ODOCHECK- Mini" An effective way of controlling foul smell & odor. In this unit air is feeded to vaporisation tube to produces millions of small particles in the form of dry vapor of the odor neutriliser liquid.

These particles are released in the odorous air.

Applications :-

- ✦ Waste room
- ✦ Garbage chute rooms
- ✦ Large public rest rooms
- ✦ Sewage treatment plants
- ✦ Grease traps areas
- ✦ Piggery's, Poultry feed plants
- ✦ Slaughter houses.
- ✦ Milk processing industry

Construction & Salient features :-

- ✦ Weatherproof SS 304 Cabinet enclosure
- ✦ Compressor generates compressed air which is supplied to vaporization tube to atomize liquid
- ✦ 5 ltr. capacity Odor Neutraliser Liquid container
- ✦ Controller with soft touch buttons
- ✦ Liquid level indication
- ✦ Digital display-Set timers for On -OFF time
- ✦ Depending on odor strength the ON/OFF time can be adjusted

Liquid odor neutriliser :-

- ✦ Millions of this atomized liquid particles mask the odor gas molecules to control odor
- ✦ Further the natural liquid completely destructs the gases through Bio- degradation. This process is entirely natural process, completely safe and eco-friendly
- ✦ Combination of automisation and natural liquid gives solution for the odor problems
- ✦ These effectively eliminates odor by unit which eco-friendly safe easy to install
- ✦ Trouble free operation & working cost is low

ODOCHECK-Mini

Odor Control Unit

*An effective
way of
controlling
foul smell
& odor.*

How "ODOCHECK-Mini" works:-

Odor Neutralizer liquid is a completely natural proprietary blend of plant extracts, essential oils and emulsifiers. When sprayed, atomized or vaporized molecules of this natural solution surround odorous gases causing immediate odor neutralization, followed by complete destruction of the gas through a biodegrading action.

This is an entirely natural process, completely safe and environmentally benign. It is very effective on odorous gases such as Hydrogen Sulfide, Ammonia, Sulfur Dioxide, Mercaptans, Carbon Disulfide, Acetic Acid, Anhydride, Phenols and Styrene.

This liquid is non-toxic, nonsensitizing, non-flammable, non-reactive, non-volatile, bio-degradable and ecologically safe.

Installation:-

- ✦ W 355 mm x L 355 mm x H 655 mm.
- ✦ Wall mounted stand alone unit
- ✦ Spray ON time - Max 99 seconds & min 1 seconds
- ✦ Spray OFF time - Max 99 minutes & min 1 minutes
- ✦ 5 Liter first filled odor neutraliser liquid
- ✦ Refills are available in 5/20 liter containers.

Provisions for installation of "ODOCHECK-Mini":-

- ✦ Power connection - 230 V, Single Phase, 15 Amp, with neutral and earthing.
